Tokai Rubber Industries, Ltd. (TRI) (Head office: Komaki City, Aichi Prefecture, President: Yoshiaki Nishimura) has conducted the opening ceremony on Wednesday, April 12th at the factory of PT. Tokai Rubber Auto Hose Indonesia (TRHI) that specializes in manufacturing and selling resin hose products in Indonesia.

Indonesia has the third largest motorcycle market in the world with the increasing demand for motorcycle parts. In order to build a production system for motorcycle resin hose products in Indonesia, we established TRHI in August, 2011 then began mass production in February, 2012.

In the ceremony, participants from motorcycle and automobile companies and the industrial park as well as our group’s executives celebrated the plant’s completion. President Nishimura addressed that TRI Group hopes to contribute to the growth and prosperity of Indonesia’s automobile industry by delivering quality products to its customers.

Our group is also considering manufacturing and selling automobile resin and rubber hoses in addition to motorcycle resin products in Indonesia with a view to further strengthening our business foundation in emerging economies.
